**2Q 2018 Results – IVL**

- **Strong demand growth** led by Asia supporting enhanced margins in the Polyester Value Chain.

- **IVL benefits from integrated PET platform globally**, HVA has mixed results – gains in PEO and Packaging offset by negative lag in HVA fibers and normalizing IPA margins.

- **Portfolio enhanced and well positioned for 2H18 – 2019** with USA Cracker, Rotterdam-Portugal-Indonesia PTA, Brazil-Egypt-India PET JV consolidation as well as Avgol and Kordarna synergies in HVA.

Note: West Necessities include West PET, West Feedstock and West Fibers

- **West PET business** delivers strong growth in production and earnings year-on-year on **higher operating rates and increased margins** on spot volume, driven by Asia and regional supply disruptions.

- **West Feedstock** in 2Q18 benefits from **strong EG margins** and recovering sales of PTA in North America, partially offset by strong secondary raw materials costs.

- Recent addition of 1.1 million tons of PET capacity in **Brazil and Egypt** and another 1.1 million tons of PTA via **Rotterdam** expansion and **Portugal**, to contribute fully in the following quarters.
**2Q 2018 Results – East Necessities**

**East Necessities Core EBITDA ($M)**

- **Asia PET** business delivers strong earnings growth year-on-year supported by **high utilization rates**, driven by global demand and structural improvements.

- **Strong recovery in Asia PTA earnings** driven by improving industry structure and higher operating rates, partly offset by high secondary raw material costs.

- **Asia Fibers** business delivers improved performance and is poised for new output from Indonesian expansion in 2H18.

2Q 2018 Results - HVA

Core HVA EBITDA ($M)

- **Fibers HVA** business impacted by slow Durafiber integration, force majeures and unfavorable raw material price lag, which is expected to be recovered in following quarters.

- **Feedstock HVA** business supported by strong PEO margins and increase in IPA volumes offsetting normalizing IPA spreads.

- **HVA business** to benefit from additional volume from Avgol, Kordarna and Medco in the quarters to come.

Asia PTA margins recovery while PET outperforms
2019 Guidance Update
**Strong Demand Growth Outlook**

**PET: Safe, Convenient, Sustainable Material Choice**

- PET is 100% recyclable
- PET prolongs the shelf life and quality of the products and prevent wastage
- PET is safe and non-toxic since PET polymer is very stable and inert
- Lightweight PET save resources and also cuts costs & environmental impact during transportation
- PET reduces carbon footprint because it uses less energy, creates fewer GHG emissions and generates less solid waste

**IVL’s Commitment Towards Sustainability**

- A member of 2017 DJSI Emerging Markets Chemicals Industry
- Ranked among **Top 5** of all global chemical companies

**RobecoSAM’s Sustainability Yearbook 2018**
- Silver Class
- Industry Mover

- A constituent of the 2018 FTSE4Good Index

**Bloomberg**
- Leading in SET Index:
  - 2017 Bloomberg ESG Disclosure Scores

- 2017 Climate Change Rating: B

**Closed Loop Economy Initiative**

**EcoVadis**
- Gold Recognition:
  - Top 3% of suppliers in all categories
**PTA Industry Outlook**

- China capacity coming back to balance
- China has been able to build and back integrate unlike some producers in the west
- Exports have mainly been to the Middle East, India and not to the West
- Improving margins
- 2018 sees a surge in PTA use as it looks to substitute some virgin for recycle
- Large captive investments into refinery will require margin discipline to recover capex costs

PX Industry Outlook

- China expected to be long on PX due to new supply additions
- Current improvements in PTA margin reflective of the need for cash flow to fund the upcoming mega projects
- Recover upstream capex through downstream margin
- IVL sees a potential upside to its margins - not yet built into the forecast - with melt costs going down on account of discounts on raw materials and higher downstream prices
